Subject: RE: Lead Testing - Media Question

This is regarding some testing that was done at [Ex. 6 - Personal Privacy] home in the City of Flint. She lives at [Ex. 6 - Personal Privacy] She presented documentation from Miquel Del Toral that the water was tested.

The results of multiple testing showed extremely high levels of Lead in the water.

I would like to confirm that the testing was done and the preliminary report is in fact real.

Also, if there is any way someone could do an interview with us next week about this I would like to at least put that out there.
